

Jeffries Recover™ Mulch

Adelaide's most popular home garden mulch! Contains Jeffries Organic Compost and is boosted with Blood and Bone increasing nitrogen, phosphorous and calcium – three vital nutrients for plant growth. Jeffries Recover is more than just a mulch!

USE

- When you want an attractive dark finish in your garden
- When you want to give your plants the extra food they need to flourish
- When you want the protection of a mulch with the added benefit of improving the soil
- For established gardens where digging in compost to the soil may be difficult

garden beds

landscape projects

KEY BENEFITS

- Soil conditioning mulch
- Suppresses weed growth
- Improves water retention
- Insulates plants against extreme temperature fluctuations
- Includes key nutrients Nitrogen, Phosphorous and Calcium, through the addition of Blood & Bone

MADE FROM

Recycled timber, including pallets and other clean timber packaging material, blended with Jeffries Organic Compost - composted organic material including garden prunings and food organics. Boosted with Blood & Bone, an organic based fertiliser suitable for all garden plants.

Proudly made from recycled organics

CERTIFICATIONS

Australian Standard 4454 LIC 2017

ADDED BLOOD & BONE

Jeffries Recover Mulch

APPLICATION

1. Spread mulch over the soil surface to a depth of 50-75mm
2. Keep a small space between mulch and base of plants

3. Water in thoroughly when finished, ensuring the water is penetrating the mulch and wetting the soil below

Area may need fewer, heavier irrigations to ensure the plant root zone is wet each time

Ensure any irrigation drip lines sit underneath the mulch

ORDERING

Online: www.jeffries.com.au/shop

Email: sales@jeffries.com.au

Freecall 1800 JEFFRIES

Alternatively, request Jeffries Recover™ at your local Jeffries stockist. For a list of Jeffries stockists go to www.jeffries.com.au/contact-us/stockists

Typical Analysis

Particle size grading	soil conditioner
Organic Matter	50 - 60%
pH	7 - 8
Bulk density	0.55 - 0.7 tonne/m ³

Nutrient availability

	%	kg/m ³
Nitrogen (N)	1.1 - 1.5 %	4.5 - 6.4
Phosphorous (P)	0.2 - 0.3 %	0.7 - 1.3
Soluble Phosphorous	< 5 mg/L	
Potassium (K)	0.4 - 0.7 %	1.9 - 2.9
Calcium (Ca)	2.3 - 3.5 %	9.6 - 14.8
Magnesium (Mg)	0.3 - 0.4 %	1.3 - 1.7
Sulphur (S)	0.2 - 0.8 %	0.8 - 3.2

Nutrient Availability

Jeffries Recover™ Mulch is a mulch as opposed to a fertiliser, however, it does contribute nutrients to your soil. It is important to account for these additional nutrients when considering your fertiliser needs, which can also provide extra savings.

Soil pH buffering

As Jeffries Recover™ Mulch breaks down into the soil, the organic matter works to buffer the fluctuations in soil pH, neutralising the soil and improving nutrient uptake and plant health.

HEALTH WARNING

this product contains microorganisms • keep product moist when handling to avoid dust
avoid breathing dust or mists – wear particulate mask if dusty • this product has low risk of containing sharp materials
wear appropriate gloves and footwear as a precautionary measure • wash hands immediately after use
