

Jeffries Forever Mulch Range

Some mulches can turn a dull grey or fade quickly, but Jeffries Forever Mulch hold their colour and lustre longer. The colourant used to achieve the rich colour is environmentally friendly and safe for children and pets.

Use

- When you want dynamic contrast with your plants/landscaping
- As a decorative mulch
- When you want to give your garden an instant makeover
- As a quality recycled timber alternative to pine bark

Key benefits

- Long lasting colour safe for kids, pets and plants
- Slow break down
- Longer lasting colour than bark mulches
- Easy to spread
- Suppresses weed growth
- Improves water retention
- Insulates plants against extreme temperature fluctuations

Made from

Recycled timber including pallets and other clean timber packaging material.

Jeffries Forever Mulch Range

Application

 Spread mulch over the soil surface to a depth of 50-100mm.

 Keep a small space between mulch and base of plants

 Water in thoroughly when finished, and ensure the water is penetrating the mulch and wetting the soil below.

Area may need fewer, heavier irrigations to ensure the plant root zone is wet each time

ensure any irrigation drip lines sit underneath the mulch

 Prior to use store mulch on a tarpaulin if possible.

Typical Analysis Particle size grading fine mulch Bulk density 0.55 - 0.7 tonne/m³
