

# Jeffries Landscapers Choice Coarse Mulch

Jeffries Landscapers Choice Coarse Mulch is a durable, coarse, long lasting mulch. that will add valuable carbon to your soil as it slowly breaks down. A popular choice for landscape professionals.

## Use

- For broadacre coverage
- For large scale yards and reserves
- For horticulture and viticulture applications
- If you have a windy/slopy site
- When an economical option is required

## Key benefits

- Long lasting
- Suppresses weed growth
- Improves water retention
- Insulates plants against extreme temperature fluctuation
- Slow release organic nutrients into soil for sustained plant growth
- Superior matting property making it ideal for slopes and windy conditions

## Made from

100% green organic material, including garden prunings and tree loppings, that has been through a controlled process of natural aerobic composting.

Visit [www.jeffries.com.au](http://www.jeffries.com.au) for more information.

## Certifications

Jeffries is an Australian  
Certified Company

# Jeffries Landscapers Choice Coarse Mulch

## Application

- Spread mulch over the soil surface to a depth of 50-100mm.

- Keep a small space between mulch and base of plants

- Water in thoroughly when finished, ensuring the water is penetrating the mulch and wetting the soil below

Area may need fewer, heavier irrigations to ensure the plant root zone is wet each time

ensure any irrigation drip lines sit underneath the mulch

## Typical Analysis

Particle size grading	coarse mulch
Organic Matter	80 - 90%
C/N Ratio	50 - 70%
Soluble Phosphorous	<5mg/L
pH	7.6 - 8.0
Bulk density	0.3 - 0.45 tonne/m <sup>3</sup>

## Nutrient availability

	%	kg/m <sup>3</sup>
Nitrogen (N)	0.6 - 0.9 %	1.6 - 2.6
Phosphorous (P)	0.12 - 0.14 %	0.3 - 0.4
Soluble Phosphorous	< 5 mg/L	
Potassium (K)	0.5 - 0.8 %	1.4 - 2.3
Calcium (Ca)	2.0 - 2.5 %	5.6 - 7.0
Magnesium (Mg)	0.3 - 0.4 %	0.8 - 1.2
Sulphur (S)	0.15 - 0.23%	0.4 - 0.7

## Nutrient Availability

Jeffries Landscapers Choice Coarse Mulch is a mulch as opposed to a fertiliser, however, it does contribute nutrients to your soil. It is important to account for these additional nutrients when considering your fertiliser needs, which can also provide extra savings.

## Soil pH Buffering

As Jeffries Landscapers Choice Coarse Mulch breaks down into the soil, the organic matter works to buffer the fluctuations in soil pH, neutralising the soil and improving nutrient uptake and plant health.

## HEALTH WARNING

This product contains microorganisms • keep product moist when handling to avoid dust  
avoid breathing dust or mists – wear particulate mask if dusty • this product has low risk of containing sharp materials  
wear appropriate gloves and footwear as a precautionary measure • wash hands immediately after use
